UNITED STATES DEPARTMENT OF AGRICULTURE

SOIL CONSERVATION—INDEX TO VOLUME IV

JULY 1938 TO JUNE 1939

Page

Agricultural over-all planning—the next step. E. H. Wiecking 32–34, 53
Agricultural Adjustment Administration, program planning. F. F. Elliott 38–40, 53
Agroecology, basic science of soil conservation. Basil M. Bensin 138–141, 152
Agronomic measures, need for mechanical support. C. R. Enlow 170–171
AHLSON, CHARLES B.: Permanent Cover in Irrigated Orchards. With George Hutchinson 199–202
Alabama, rainfall in. Ralph Fulghum 119–121, 124
ALEXANDER, W. W.: The Rehabilitation and Tenancy Programs 14–15, 17
ANDERSON, E. WILLIAM: Grazing Program in the Dry Land Section of Eastern Oregon 67–68, 83
Animals, birds, and the land. Ira N. Gabrielson 25–26, 28
Arizona, revegetation and arroyo control. E. L. Beutner. 194–195, 202, 204
Arkansas—
  land use, new patterns 273–284
  soil conservation districts map 275
Arroyo control and revegetation in Arizona. E. L. Beutner 194–195, 202, 204

Beaver Creek watershed, erosion, effect of land use 191
BELL, G. Y.: Analysis of Tree Planting Problems in Region 3 ..... 89–90, 94
BENNETT, H. H.—
  foreword to Wildlife issue 205
  Soil Conservation—Farm by Farm and Field by Field 7–9
BENSIN, BASIL M.: Agroecology as a Basic Science of Soil Conservation 138–141, 152
BEUTNER, E. L.: Arroyo Control and Revegetation in Arizona 194–195, 202, 204
Big Horn Draw, range conservation. Thomas E. Doughty and Kenneth Fiero 62–64
Biology, relation to balanced farm. Ernest G. Holt 206–208
Birds, animals, and the land. Ira N. Gabrielson 25–26, 28
BISHOPP, F. C.: Insects and Conservation 293–295
BOND, RICHARD M.: Rodents and Soil Conservation. With Adrey E. Borell 220–223
Book reviews and abstracts. Phoebe O'Neall Faris. Each issue except March and May.
BORELL, ADREY E.: Rodents and Soil Conservation. With Richard M. Bond 220–223
BREGGER, JOHN T.: Contour Planting and Terracing as a Basis for Soil and Water Conservation in Orchards. 256–259, 263
BRINK, WELLINGTON: New Patterns of Land Use in Two Southern States 273–293
Broad River soil conservation district, Georgia, new land uses 285–288

Page

BULLARD, L. E.—
  Effect of Erosion on Long-Time Strip Cropping in Bush Valley, Minnesota. With I. J. Nygard 239–241, 249
  Measuring the Effect of Land Use on Erosion. With H. L. Thomas and I. J. Nygard 190–191

CARNES, A.: Maintenance of the Drainage-Type Terrace. 165–169
Cash in the rancher's pocket. Homer G. Towns 226, 232
Central Valleys soil conservation district, Arkansas, new land uses 284
CHAMBERS, T. B.: Engineering in Soil and Water Conservation 153–156
Channel dimensions, graphic solution by use of Manning formula. H. G. Jepson 161–165
CHARLES, F. E.: "Before and After" on an Ohio Demonstration Farm 144–146, 147
CLAPP, E. H.: Dependable Forests—Especially Farm Forests 51–53
Clover, Hubam. C. R. Enlow 86
COLDWELL, ALBERT E.: Terraces Increase Yields in the Plains. With Fred S. Reynolds 95
COMPTON, LAWRENCE V.: Wildlife and the Range 215–217
Conservation—
  and insects. F. C. Bishopp 293–295
  of farm income and soil resources. H. R. Tolley 11–13
  of the range. W. W. McLaughlin 175–177
  on Big Horn Draw range. Thomas E. Doughty and Kenneth Fiero 62–64
  soil. *See* Soil conservation.
  work, equipment problems. G. E. Ryerson and William X. Hull 181–182, 184
Contour—
  furrows, thirteen years. D. V. Shuhart 72–74
  planting, in orchards, basis for soil and water conservation. John T. Bregger 256–259, 263
Contouring and straight farming, a time study. Kenneth P. Zunkel 129–131
Corrugation furrows in Smoky Hill River project. W. R. Watson 65–66
CORY, H. T.: Some Engineering Aspects of the Water Facilities Program 172–174, 177
Cover, permanent, in irrigated orchards. Charles B. Ahlson and George Hutchinson 199–202
Crooked Creek soil conservation district, Arkansas, new land uses 282–284
Cropping, strip—
  experience in Dust Bowl. R. R. Hinde 103–105, 107, 108
  long-time, erosion effects in Bush Valley, Minnesota. I. J. Nygard and L. E. Bullard 239–241, 249

156968—39

Page

CULBERTSON, R. E.: Birdsfoot Trefoil—A Promising Legume for the Northeastern States..... 242–244, 249

DAMBACH, CHARLES A.: Profits for the Farmer. With Ernest E. Good..... 227–228
DAVIS, ARNOLD: Roads Open—and Farms Secure..... 82–83
DAVIS, ARNOLD M.: Highway Erosion Control in Soil Conservation Districts..... 249–251
DAVIS, CECIL N.: Utilizing Farm Ponds for Wildlife.... 230–232
DAVISON, VERNE E.: Putting Eroded Field Borders to Good Use..... 224–225
Demonstration projects, practices on, evaluation. R. E. Uhland and W. F. Peel..... 253–255
DETWILER, S. B.: The Ginkgo..... 122–124
DICKSON, R. E.: Closed Level Terraces—No Run-off in 12 Years. With B. C. Langley and C. E. Fisher..... 262–263
DOUGHTY, THOMAS E.: Range Conservation on Big Horn Draw. With Kenneth Fiero..... 62–64
Drainage and erosion. J. Frank Relf..... 112–114
Drainage-type terrace, maintenance. A. Carnes..... 165–169
Drainageways, farm, and outlets. C. L. Hamilton..... 156–160
Dry areas, water facilities and land use in. Dillon S. Myer and L. C. Gray..... 46–48
Dry-land section of eastern Oregon, grazing program. E. William Anderson..... 67–68, 83
Dust Bowl—
  economic units for. W. R. Watson..... 80–81, 88
  experience with strip cropping. R. R. Hinde. 103–105, 107, 108
  farming level terraces in. Fred C. Newport and Robert R. Hinde..... 115–118

EDMINSTER, FRANK C.—
  Improving Farm Woodland for Wildlife..... 212–214, 223
  Woody Vegetation for Fence Rows..... 99–101
EISENHOWER, M. S.,—
  introductory statement on objectives of land-use planning..... 29
  introductory statement on objectives of land-use programs..... 1
ELLIOTT, F. F.: Planning the A. A. A. Program..... 38–40, 53
Engineering—
  aspects of the water facilities program. H. T. Cory 172–174, 177
  constructed erosion control measures are often necessary to provide a complete farm conservation plan. Chart, back cover. January 1939.
  in soil and water conservation. T. B. Chambers..... 153–156
  planning in flood control. E. R. Kinnear..... 178–180
ENLOW, C. R.—
  Agronomic Measures Often Require Mechanical Support..... 170–171
  Hedges Conserve Soil and Wildlife..... 209, 223
  Hubam Clover..... 86
  Problems Affecting the Establishment of Grass in the Great Plains..... 75–79
  The Uses of Mulch..... 136–137
Equipment problems in conservation work. G. E. Ryerson and William X. Hull..... 181–182, 184

Page

Erosion—
  and drainage. J. Frank Relf..... 112–114
  control—
    by grasses in Puerto Rico, observations. Ovidio Garcia Molinari..... 267–270
    by planting legumes. Edward H. Graham..... 210–211
    of highways in soil conservation districts. Arnold M. Davis..... 249–251
    practices, relation to soils and soil conditions in Cayey area. Samuel Gracia..... 271–272
  effect—
    of land use on measurement. H. L. Thomas, I. J. Nygard, and L. E. Bullard..... 190–191
    on long-time strip cropping in Bush Valley, Minnesota. I. J. Nygard and L. E. Bullard..... 239–241, 249
    in Hawaii, problem. N. E. Winters..... 101–103
  problem confronts Hawaii. N. E. Winters..... 101–103
  repair by kudzu in areas of South. A. T. Semple..... 142–143
  soil, and its control at La Plata, Cayey area, Puerto Rico. Joaquín Oliver..... 265–267

FARIS, PHOEBE O'NEALL—
  Book Reviews and Abstracts. Each issue except March and May.
  Puerto Ricans Serve Conservation Program..... 264
Farm—
  biologically balanced, description. Ernest G. Holt..... 206–208
  by farm, soil conservation. H. H. Bennett..... 7–9
  demonstration, "before and after" in Ohio. F. E. Charles. 144–146, 147
  drainageways and outlets. C. L. Hamilton..... 156–160
  forests, value as dependable forests. E. H. Clapp..... 51–53
  income, conservation. H. R. Tolley..... 11–13
  mapping for correct land use. Chart, back cover. November 1938.
  ponds, utilization for wildlife. Cecil N. Davis..... 230–232
  woodland—
    fence around. John F. Preston..... 133–135
    improvement for wildlife. Frank C. Edminster. 212–214, 223
Farmer—
  participation. M. L. Wilson..... 30–31
  profits for. Charles A. Dambach and Ernest E. Good. 227–228
  tenant, security for. Edwin R. Henson..... 41–43
Farmers, profits from second-growth forests in Washington. Floyd L. Otter..... 233–238
Farming—
  contour and straight, time study. Kenneth P. Zunkel. 129–131
  good, cause of decrease in soil erosion. Chart, back cover. February 1939.
  level terraces in the Dust Bowl. Fred C. Newport and Robert R. Hinde..... 115–118
Farms—
  rundown, in Maryland. Angus McDonald..... 106–107
  secure, and open roads. Arnold Davis..... 82–83
Fence—
  around the farm woodland. John F. Preston..... 133–135
  rows, woody vegetation for. Frank C. Edminster..... 99–101

PUBLIC LIBRARY
INFORMATION

Field— Page
borders, eroded, good use of. Verne E. Davison..... 224–225
by field, soil conservation. H. H. Bennett..... 7–9
Fiero, Kenneth: Range Conservation on Big Horn Draw. With Thomas E. Doughty..... 62–64
Finnell, H. H.: Report of Land Retirement Operations in Southern Great Plains..... 245–249
Fisher, C. E.:
A Jack for Pulling Soil-Sampling Tubes..... 147
Closed Level Terraces—No Run-off in 12 Years. With R. E. Dickson and B. C. Langley..... 262–263
Flood control—
and land treatment. E. N. Munns..... 49–51
high flood flows, Mid-western and Western States, chart. 183
on watersheds. Henry A. Wallace..... 128
planning in engineering. E. R. Kinnear..... 178–180
work of the Department. Arthur C. Ringland..... 18–19
Forests—
dependable, especially farm forests. E. H. Clapp..... 51–53
farm, value as dependable forests. E. H. Clapp..... 51–53
second-growth in Washington, profits to farmers. Floyd L. Otter..... 233–238
storehouses of economic wealth. F. A. Silcox..... 22–24
Fresno terraces, Fred C. Newport..... 125–126, 128
Fry, J. R., Jr.: Willows for Streambank Control.... 109–111, 128
Fulghum, Ralph: Rain Fell in Alabama..... 119–121, 124
Furrows—
contour, thirteen years. D. V. Shuhart..... 72–74
corrugation, in Smoky Hill River project. W. R. Watson. 65–66

Gabrielson, Ira N.—
The Land and the Birds and Animals..... 25–26, 28
The Land and the Perpetuation of Wildlife..... 56–57
Georgia—
land use, new patterns..... 273–274, 285–293
soil conservation districts, map..... 287
Ginkgo, the. S. B. Detwiler..... 122–124
Good, Ernest E.: Profits for the Farmer. With Charles A. Dambach..... 227–228
Gracia, Samuel: Soils, Soil Conditions, and Their Relation to Erosion-Control Practices, Cayey Area..... 271–272
Graham, Edward H.: Legumes for Erosion Control and Wildlife..... 210–211
Grass, establishment in Great Plains, problems affecting. C. R. Enlow..... 75–79
Grasses, of Puerto Rico, use in erosion control, observations. Ovidio Garcia Molinari..... 267–270
Gray, L. C.—
Economic Objectives of the Land-Use Program..... 5–6, 13
Water Facilities and Land Use in Drier Areas. With Dillon S. Myer..... 46–48
Water Facilities for the Arid and Semiarid West. With Dillon S. Myer..... 16–17
Grazing—
program—
for soil conservation. Liter E. Spence..... 270
in dry land section of eastern Oregon. E. William Anderson..... 67–68, 83
spring, deferred. Liter E. Spence..... 191
Great Plains—
grass establishment in, problems affecting. C. R. Enlow.. 75–79

Great Plains—Continued. Page
southern, land retirement operations, report. H. H. Finnell..... 245–249
yields increased by terraces. Fred S. Reynolds and Albert E. Coldwell..... 95
Gully, transition, from photographs taken in New Jersey. Chart, back cover. April 1939.

Hamilton, C. L.: Farm Drainageways and Outlets..... 156–160
Hawaii, erosion problem. N. E. Winters..... 101–103
Hedges, value in conservation of soil and wildlife. C. R. Enlow..... 209, 223
Henson, Edwin R.: Security for the Tenant Farmer..... 41–43
Highway—
erosion control in soil conservation districts. Arnold M. Davis..... 249–251
studies serve many uses. T. H. MacDonald..... 54–55, 59
Hinde, R. R.: Depth of Moisture and Yield of Wheat.... 192–193
Dust-Bowl Experience With Strip Cropping..... 103–105, 107
Hinde, Robert R.: Farming Level Terraces in the Dust Bowl. With Fred C. Newport..... 115–118
Holland, contest with the sea. W. C. Lowdermilk..... 148–151
